

Industry 4.0 and Smart Factory:

Ensuring Workers Safety & Accelerating Operational Efficiency

FEATURES

Multiple Operating Modes: Motion Tracking, Geozone Detection etc.

Geofencing Zone Detection

Edge Computing for Proximity Detection and Exposure Assessment

Predictive Maintenance Sensors

ATEX Rated

Water Proof Enclosure / Leak Detection / Metering

Cloud Connectivity or On Premise

Magnetic USB Connector for Rechargeable Battery/Replaceable AA Batteries

Open API / Firmware Upgrade

Connection to BMS or SCADA

BENEFITS

- Covid-19 Safe Return to Work - Occupancy Heat Maps & Contact Tracing
- Tag Wearer Proximity Notification with Centimetre Accuracy
- Indoor and Outdoor Asset & People Tracking
- Real-Time Workflow Control
- Material Flow Management
- Monitoring: Fire, Flood, Smoke, Air Quality and Temperature
- SOS Button
- Access Control & Density Policy Enforcement
- Real-Time Management of Hazards
- Anti-theft Detection & Danger Zones/Restricted Area Access Notifications
- Processing Times Monitoring and Product Authentication & more...

SMART BADGE

Sleek, Smart and Multi-Functional.

The smart badge is a portable multi-mode tracker in ID card format with embedded sensors, ideal for tracking, zone notification and monitoring of workplace safety and security.

High Precision, Hardened Casing. Designed to Last.

A highly versatile multi-mode tracker, with embedded sensors, designed to resist harsh surroundings enabling you to perform seamless asset tracking and management in any industrial environment!

COMPACT TRACKER

Solid and Long Lasting, Built for Heavy Duty Tracking.

Designed to resist harsh surroundings enabling you to perform seamless asset tracking and management in any industrial environment – whether it's for heavy-duty assets, inventory or livestock, taking advantage of its extraordinary battery autonomy.

INDUSTRIAL TRACKER

Multiple Other Tag Options Available...
