

Features at a Glance

WIDE RANGE OF WEARABLES

The BT7x0 Series is meant for wearable tracking and comes in three convenient form factors: pendant, wristband, and clip mount

RELIABLE, LONG-RANGE SENSE & LOCATION

Integrated TruePoint Diversity Antenna System (TDAS) for improved location accuracy, embedded high-capacity CR2477 and long-range Bluetooth 5, the BT7x0 is ready to go anywhere you are.

MULTI-SENSOR, READY FOR YOUR MOST IMAGINATIVE APPLICATIONS

Integrated accelerometer and barometer for better battery life and location capabilities.

QUUPPA TAG CERTIFIED

The BT720 is pending certification as a QUUPPA tag device, enabling accurate Bluetooth location services including those directly associated with fighting the COVID-19 pandemic.

Sentrius™ BT7x0 Tracker

Bluetooth 5 Long Range Location Tracker

- Four high-visibility LED indicators with 2 axis visibility
- Integrated vibration with variable patterns
- Integrated Beeper / Alarm
- Accelerometer and barometer sensor
- Integrated programmable push button
- Available in pendant, wristband, and clip mount

The Sentrius™ BT7x0 Bluetooth Tracker is a durable personnel-tracking solution including social distancing, contact tracing, proximity detection and RTLS tag functionality in partnership with Quuppa.

Proximity sensors and Real Time Location Services (RTLS) are emerging as some of the most effective solutions for social distancing, contact tracing, handwashing compliance, and measuring proximity between employees in every industry. Our BT7x0 series offer Bluetooth 5 long-range, TruePoint Diversity enabled antenna system (TDAS), and a high-capacity battery, making it an ideal fit for today's critical contact tracing applications.

Based on Laird Connectivity's 20 years of Bluetooth expertise, the BT7x0 series Bluetooth Tracker integrates critical user notifications and best-in-class Bluetooth performance for the most accurate location performance. Several form factors are available and Laird Connectivity's team of Product Development Specialists are available to quickly provide custom options.

- Bluetooth 5 Long Range
- User Alerts
 - Four high visibility LED indicators
 - Animated visibility / flasher
 - Integrated vibrator with variable patterns
 - Integrated alarm / beeper
- Integrated push button
- Accelerometer and barometer sensor
- Quuppa Tag Qualified (pending) for accurate RTLS (BT720)
- FCC, ISED, CE Certified (pending)
- Mounting options
 - Wristband
 - Clip
 - Pendant / tag / lanyard
 - Hard hat adapter
